## FARMING FOR A MORE SUSTAINABLE TOMORROW

Earth Day is a reminder that our environment requires our attention and care. Since the 1970s, we have practiced healthy crop rotations, encouraged a diverse ecosystem around our fields, and efficiently used local water sources. These steps help us carefully select produce varieties that grow well and taste great.

### SPRING GREENS PIZZA

[Click here](#) to get this delicious pizza recipe!

The fresh, clean flavor of the asparagus and leeks complement the earthy taste of the artichoke. This pizza is an easy – and delicious – way to eat your greens!
