

# Get special savings on select prescription medications

## Optum Copay Card Solutions accumulator adjustment program

When you use a copay card with your pharmacy ID card, you can lower your out-of-pocket costs.

The amount paid for by a copay card does not count toward your deductible and out-of-pocket limit. Only your true out-of-pocket costs apply to those totals.

### Example:

$$\text{\$500} - \text{\$100} = \text{\$400}$$

Copay amount

Amount paid for  
by copay card

**Amount you pay that goes  
toward deductible/  
out-of-pocket limit**
